

Organic 202

Preliminary Product Data Sheet

Product Description & Properties

Amorim Organic 202 is a natural infill for artificial turf, based on cork and olive components in a special processed way and optimized composition. **Amorim Organic 202** is a perfect 100% natural solution for systems that require a product without compromising player safety and environmental concerns. It optimizes long term characteristics of sport functionality of artificial turf systems without compromising naturality.

Benefits

Sport function

- Balanced elasticity and compression resistance (cork elasticity / olive resistance)
- Has lower surface temperature
- Long term stability in outdoor sport application
- Sustainability

Construction

- Natural technology and materials
- Phthalates free
- Biodegradable
- Heavy metals pass
- Decay resistance

Sustainability

- 100% natural, renewable and recyclable
- 100% free of chemical contamination

Physical and mechanical properties

Cork Granule Size (mm)	1–3 mm
Bulk Density (kg/m ³) ¹	450 +/- 10%
Moisture Content (%) ²	<20

(1) ISO 2031

(2) ISO 2190
